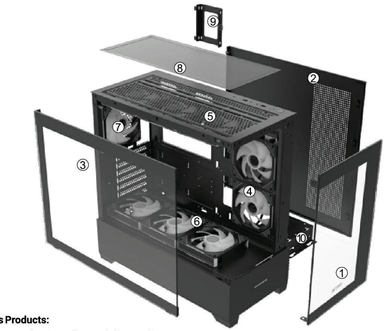
User Manual & Warranty Card

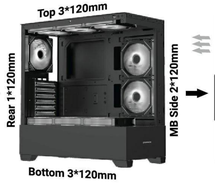


Guidelines for Glass Products:
Ensure proper alignment when installing and dismantling.

1. Front Panel: Loosen screws located on the inner left side of the panel, then shift the glass panel to the left.
2. Right Iron Panel: Undo the two hand-screwed screws on the case's back, then push them rearward.
3. Left Glass Panel: Loosen screws on the case's rear, then push them leftward.
4. Motherboard Fan Placement: Fit the fan internally and secure screws from the hardware's rear.
5. Top Fan Placement: Fit the fan internally and secure screws from the hardware's top.
6. PSU Cage Fan Placement: Fit the fan internally and secure long screws from within.
7. Rear Fan Placement: Fit the fan internally and secure screws from the rear.
8. Top Dust Filter: Remove cover from the top.
9. SSD Shelves: Extract the hard drive bay from the hardware's rear.
10. HDD Shelves: Extract the hard drive bay from the hardware's bottom.

Fan Installation

Loosen the screws situated at the rear of the hardware, then shift the glass to the left.



Fasten the cooling fan in place using the provided fan screws.

2.5 Inch SSD Hard Drive Installation

Access the mounting position for SSD hard drives by opening both the left and right panels.

Take out the SSD shelf.

Insert the SSD drive into the drive shelf.

Four screws are fastened to secure the hard drive shelf.

Reposition the drive rack and fasten it securely with screws.

PSU Installation

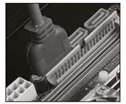
Access the bottom PSU mount by opening the right side panel.

Position the bottom plate inside the PSU and align it correctly.

Secure the screws from the rear of the hardware.

USB 3.0 Installation (Optional)

The USB 3.0 port on the chassis



Connect to the motherboard's USB 3.0 port.

USB 3.0 port on the case panel
